Community Banks: 
Safe, Secure and Solid

These are challenging times. There is turmoil and uncertainty about our nation’s economy. And in challenging times, consumers need to stick with the tried and true and the institutions that have served them well.

One thing is certain. Community banks are still safe, secure and stable financial institutions focused on doing what is best for our customers and communities.

A community bank customer’s insured deposits are safe in a community bank. No one has ever lost a penny of deposits insured by the FDIC. If you are concerned about the safety of your money, talk to your local community banker to get the straight facts.

Your Community Bank. Safe and Secure.

We would be glad to answer any questions on FDIC insurance or the CDARS program.
